Ex parte Quayle

1. Newly amended claims 1-15 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 1-15 and claims 16, 17 and 19-21 are directed to different species with distinct technical features. Claims 1-15 are drawn to a fixing devices with a first and second coil units each forming a resonant circuit having a different resonance frequency whereas claims 16, 17 and 19-21 are drawn to a fixing device with a core and coil holding bodies having a specific grooves and leads structure. The two groups are patentably distinct because each of these two groups does not require each other and the field of search for each group is also different. It should be noted that the original claims 1 and 9 were generic to claims 16, 17 and 19-21.

Since applicant has received an action on the merits for the originally presented invention (claims 16-21 with the original generic claims 1 and 9), this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-15 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 16, 17 and 19-21 are allowed.

3. As a result, this application is in condition for allowance except for the presence of claims 1-15 directed to an invention non-elected by original presentation. Applicant is required to cancel the noted claims or take other appropriate action (37 CFR 1.144).

4. The prosecution of this case is closed except for consideration of the above matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
